

BRITANNIA
GARMENT PACKAGING

Independent Designer's Brochure

Order process:

1. Please download or request a specification form(s) for the products you require and send it through to the brand manager for costing.

Please note we need to see artwork prior to giving you any quotes and if at any point your specification changes you will need to re-work your form and submit for a new quote

2. An itemised quote will be provided based on the specification given.
3. You will be sent a proforma application form alongside your itemised quote, which will need to be filled in and returned so we can open an account for you.
4. We will place the order for you ready for payment. Once payment is received, a production artwork will be shared with you to approve.

Note any changes at this stage will delay your order and could incur a charge

5. Once payment and artwork approval is received your order lead times will begin.

***Note – pre-production samples have the same lead times as orders below and there is a charge of £50 exclusive of vat and carriage*.**

Important information:

We always send a proforma invoice for you to check the order is correct and the shipment address is correct.

If at any point between the ordering and shipment point your delivery address changes it is entirely your responsibility to alert us and ensure our database is up to date with your new details. Any deliveries that go to an old address will be your responsibility to retrieve.

Global Organic Textile Standard cotton labels

GOTS Organic cotton labels are produced in our Britannia India site. These are certified organic labels. We can only print on these using organic inks.

They are also available in either natural or dyed white. The dyed white is an organic dye so will not harm the nature of the label.

Badge labels are strongly advised against as the ends will fray.

Lead times begin from artwork approval and date of payment is 30 working days.

Ecru coated cotton labels

Ecru coated cotton labels are **not organic** and they are a little thinner than organic cotton labels. These are available in either dyed white or natural it is a coated cotton and a centrefold label is advised for this material.

These are available for UK production.

Lead time is 10 working days from the date of payment and artwork approval.

Woven labels

Woven labels are produced in our Britannia Turkey site. These can only be woven with different colour polyester yarns. These are ideal if there are many colours involved or a background colour is required.

We can offer recycled polyester as an option. Please specify this on your specification form.

Lead times begin from artwork approval and date of payment is 15 working days.

Polyester satin labels

Polyester satin labels are made in the UK. These are printed labels and we can offer recycled poly satin labels. Please specify this on your specification form.

Lead times begin from artwork approval and date of payment is 7 working days.

Heat Transfer labels

Heat Transfer labels are produced in our Britannia Hong Kong site. Heat transfers are specification based and we will need you to fill in a heat transfer form in order to provide you with a quote.

Lead times begin from artwork approval and date of payment is 15 working days

Adhesive labels

Adhesive labels are dependent on design as to where they are produced. We have a range of options from semi-permanent to permanent, matt or gloss finishes.

Lead time is specification based only.

Kraft/Card swing tickets and Business cards

We can supply Kraft/Card and Business Cards on specifications of most GSMs.

In order to provide you with an accurate quote please request/download a swing ticket form and return to your brand manager with a mock up including high resolution artwork.

We also do Business Cards however all information must be provided before a quote is given.

Lead time is specification based only.

If you require any packaging outside the above options please ensure you provide mock ups, high resolution artworks and specifications outlining exactly what it is that you need. Any physical samples always are a great help.
